To Whom it May Concern,

This letter is to confirm that Film Spring Open France represented by Florent Pallares is intending to participate in the project entitled Film Spring Open Air 2017.

We have participated in previous 7 editions of this project and we therefore fully support this initiative.

We can ensure that Film Spring Open support young international audiovisual artists to start their career, by providing the best equipment necessary for audiovisual education.

Development of New Production Model is a next step which will help create new economic ways of audiovisual production, indispensable for debuting artists.

We are looking forward to be part of Film Spring Open Air 2017 and we wish every success to the project and for the accomplishment of the New Production Model.

Florent Pallares
